WHAT IS TRAINBEE?

WHAT

Trainbee is the UK's only dedicated online directory designed exclusively for Trainee therapists in the UK to search and apply for clinical placements in Counselling and Psychotherapy.

WHY

We understand the challenges that training centres face in supporting their students to find suitable placements. We aim to provide a solution that not only meets your standards but also frees up your time.

WHERE

We welcome Trainees from all across the UK, including England, Northern Ireland, Scotland, and Wales, who are studying a wide range of clinical therapies.

WHO

At Trainbee, our primary goal is to assist Trainees in completing their clinical hours, in an ethical and safe placement that aligns with their focus. Our team is driven by a passion for supporting aspiring therapists in becoming qualified and entering the field with confidence.

TRAINEE CARE WITH TRAINBEE

At Trainbee, we are committed to providing your students with safe and ethical placement opportunities. That's why we take extra measures to connect them with reputable and high-quality providers. To ensure the integrity of our platform, we provide Agencies the opportunity to participate in our **verification** process. If you want to know whether an Agency is verified, keep an eye out for the following indicators;

- ✔ **Verified** mark on Agency profile & placement opportunity
- ✔ **Green** ✔ on Agency profile & placement opportunity
- ✔ **Trainbee 'Ethical Practice' form on Agency profile**

We want to ensure that your Training Centre feels at ease when supporting its students in finding suitable placements. To help with this, we've created a Trainbee 'Ethical Practice' form that outlines the checks we have carried out, the commitment that the placement provider has agreed to make to your students and their ways of working. We encourage your students to download and share this document with you so that you are clear on the Agency's commitment to them.

Whilst we encourage Agencies to undergo our verification process, it's important to note that it's not mandatory. Therefore, not every Agency listed on our platform will have undergone these checks. However, this does not indicate that they are not trustworthy placements, it simply means that they haven't undergone the process.

TRAINBEE: WITH THE TRAINEE IN MIND

At Trainbee, we're not just another tech company looking to profit from a growing industry. Our platform was created by passionate practitioners who have identified a gap in the sector.

We believe that Trainees should have access to a wide range of placement opportunities, and that Placement providers should have greater visibility.

Our platform has been designed with Trainees in mind, and we've invested significant time and effort into identifying how they can benefit from us.

At Trainbee, we are dedicated to providing Trainees with access to the placements of their choice, recognising the pivotal role that their placement plays in their therapeutic career. We invite you to partner with us in supporting their journey, ensuring they have every opportunity to succeed.

CONTACT US

**We would be delighted to have a conversation
with your Training Centre to discuss how we
can support your trainees.**
